£395.00

Customised Organiser Software

If you cannot find what you require on this sheet, do not be dismayed.

We are currently developing more Organiser packages, with many more under investigation.

If your need is for something complex or special to suit a particular application, we can also help.

We have written packages that control electronic weighing machines, as well as many simpler bar code stock checking systems.

Also, and this is where you can save money, if we think your special request can be made into a standard package, then we will bear the development costs - and you just get charged the standard package price!

Order Form

Please use this form to obtain ANT products. Simply tick the required box & send it with your remittance to: **Advanced New Technology Limited** Office Suite 1, The Square, Forest Row, East Sussex, RH18 5ES
