----------------	----

Dear User,

The Psion Organiser II is now found in all walks of life. Everyday new applications and products are developed, which can be as diverse as quality control on the factory floor to calculating dental charges or even as simple as checking your spelling.

With this in mind we've produced a new catalogue designed to bring you right up-to-date with all the latest products from Psion and a whole network of other companies.*

The catalogue has been carefully divided into sections such as engineering, file handling or even general, software, hardware, training and education, so there is bound to be a section to suit your own individual requirements, and help you get the most from your Organiser.

New Mobile Computers

As pioneers in the use of hand-held technology, Psion have recently extended the concept of portable computing with the launch of our Mobile Computer range. This represents the world's first truly mobile computer with:-

- Long Battery life – typically 60 hours use from one set of batteries
- Lightweight – only 4.3 lbs
- Compact – A4 size and two inches thick
- Powerful – able to communicate with any other computer system

Two ranges of computers are available. One runs industry standard PC software (MSDOS compatible) and the other sets new standards with a specially developed graphics environment, multi-tasking and a wide range of built-in software applications.

Should you wish to know more about either the Psion Organiser II or the new Mobile Computer range and their use, then please contact either your national distributor or Psion, for further information.

Editor

PSION NEWS EDITOR

*Psion UK PLC have not seen or reviewed all the products listed here, and therefore cannot warrant their performance in any way.

PSION ORGANISER II – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Psion pioneered personal electronic Organisers, and have the world's largest selling range of machines and peripheral products in the market today.

With four powerful Organiser models to choose from, up to 64K internal RAM, two software and memory expansion slots plus a peripheral expansion slot, a sophisticated in-built programming language; the Psion Organiser II offers more to the individual user than any other electronic organiser.

Model CM and XP – Up to 32K of internal RAM memory, a 2 line 32 character screen and 32K of built-in software which includes:-

- Cross-referenced filing system for storing and retrieving all your vital personal information;
- Full mathematical and scientific calculator;
- Diary that audibly reminds you of appointments;
- Up to 8 alarms;
- Powerful programming language.

Models LZ and LZ64 – the most comprehensive Organiser yet, with more memory (up to 64K), bigger screen (4 line by 20 character) and still more functions:-

- Sophisticated free form notepads;
- International dialling codes for 400 cities in 150 countries;
- Daily or weekly at a glance diary.

Psion Hand-held Computers – To meet the specific requirements of the Corporate Systems market place, Psion have developed an extensive range of customised hand-helds. Modifications can include up to 96K of internal RAM and key pads for numeric only input. All these machines are designed to run with user specific pre-recorded software.

Barcoding

ANTETA – Advanced New Technology Ltd, Office Suite 1,
The Square, Forest Row, E. Sussex, RH18 5ES. Tel: (034282) 4909.

Four barcode data collection programs in one. User friendly and simple menu driven. Collected data can be printed or transferred to a PC in a format suitable for DBase, Lotus etc. Customised versions to meet your exact requirements. For both professionals and starters.

CODEWAY LTD – Telford Way, Colchester, CO4 4QP.
Tel: (0206) 751300.

Codeway offers a complete barcode product range for corporate control of stocks, assets, files etc. You can set up a PC based Organiser data collection system with our program generator, wands, lasers, label printers, and Barstar software for barcoded menus, lists, and documents.

UNIWELL SYSTEMS (UK) LTD – Throstle Street,
Blackburn, Lancs, BB1 1TQ. Tel: (0254) 54546.

Used in conjunction with the Uniwell – Tillmaster Retail Management System. Stocktakes, delivery inputs and price checks are all easily achieved in a scanning point-of-sale environment, resulting in a complete in-store system designed for better stock and improved margin control.

BARCODE PRINTER I – Gaascom Ltd, 9 Magnolia
Close, St Peters, Frome, Somerset, BA11 2TT. Tel: (0373) 66437.

Barcode Printer I generates the most commonly used barcodes directly to a printer. It is supplied as an OPL subroutine which can be easily implemented in your existing programs. All codes can be printed to full official specifications and include EAN8, EAN13, Code 39, 2/5 Interleaved (ITF), UPC8, UPC12.

Gaascom also supplies a wide range of accessories, software, services and barcode equipment relating to the Psion Organiser II for both private or corporate users.

GAASCOM Ltd

BARCODE READERS &

VERIFIERS – Lex

Concessionaires Ltd, Free Press
House, High Wycombe, Bucks,
HP13 6RN. Tel: (0494) 450401.

Fast accurate data entry is essential to effective Business Management. Our experience in seamless integration of barcode data can bring the benefits of speed and efficiency to any application. Products range from rugged STAINLESS STEEL LIGHT PENS to state of the art LASER SCANNERS. Reading codes from a distance, at angles and even on irregular surfaces, our products enhance the Psion Organiser in the most demanding environments. Together with BAR CODE VERIFIERS,

INTERFACE DEVICES, ERROR FREE MOBILE COMMUNICATIONS SOFTWARE for STOCK CONTROL, Lex Concessionaires is servicing the needs of industry. For information contact Mr Philip Wiseman.

Lex Concessionaires

Business Software

POWERPAK PLUS – Allenby Computer Services Ltd,
Tel: (0932) 254218. (see POWERPAK).

Application generator based on the POWERPAK relational database. Specify your own customised systems: stock control, sales order, point-of-sale, data collection, etc. Featuring validated data-entry, menus, file-handling, repetition, custom printing, barcoding, comms and calculations, without a line of OPL.

ASSET CONTROL SYSTEM – ANT Ltd, Office Suite 1,
The Square, Forest Row, E. Sussex, RH18 5ES. Tel: (034282) 4909.

Complete system to manage company assets. Organiser and PC based. Barcode data capture used to provide fast, accurate and easy to use method of recording asset details. Powerful management reporting facilities allow the identification of misplaced and lost items.

CUSTOMORG – Advanced New Technology Ltd, Office Suite 1, The Square, Forest Row, East Sussex, RH18 5ES. Tel: (034282) 4909.

We can unleash the power of your Organiser by providing customised data collection solutions for your specific application. We have many years experience in providing high quality, standard and customised Organiser software for business and industry. Give us your requirements.

LACE – Beachcomber Software, 16 Salter Street, Berkeley, Gloucester, GL13 9DB. Tel: (0453) 811860.

LACE four packages in one – • Event Logging; • Action List; • Expenses and Financial Accounting, with home and overseas entries, VAT calculations with search and print facilities. LACE II with the above, supports standing orders, time sheets, diary printing and phone call logging. Bespoke service also available.

DIAALSOFT – 12 Glynswood Road, Buckingham, MK18 1JF. Tel: (0280) 816069.

Invaluable aid for the salesperson, contains – • Database; • Telephone and mileage recording; • Bank and expense details; • Date functions and jotter. Suitable for XP or LZ (2 line mode) package available to manage data on a PC. Many other programs available including; • Music; • Morse Code; • FMAN (XP file management) and; • Calcount – the Calorie Management Program.

TIMELOGGER – Kirsta Products Ltd, 57 Alexander Street, Airdrie, Scotland, ML6 0BD. Tel: (0236) 48942.

A time management system for solicitors and other professionals which records time, by use of a barcode reader, so efficiently that it can increase fee earning by as much as 25%. A variety of charging rates and categories are available.

KETCH – On 6th May, the London 01 codes will disappear. KETCH will work through your Psion Organiser database looking for London numbers and automatically changes them – also contains a free conversion utility.

TIMELOGGER

DATA ANALYSA SYSTEMS LTD – Cleveland Road, Brunel University, Uxbridge, Middx, UB8 3PH. Tel: (0895) 810975.

All types of data collection for local authorities and commercial, marketing and manufacturing functions within industry. Many packages including: Training, Ethnic Monitoring, Interview Recording, Professional Time Study and Work Sampling; also, ergonomically designed Psion Clipboards and Barcode Sheets.

TIMERITE PROFESSIONAL – Legal Micro Systems Ltd, 45 Crawford Place, London, W1H 1HX. Tel: (071) 706 1941.

A personal time-recording system, Timerite delivers both timesheets and job cost sheets. The software will transmit the information to host computers via the Comms Link and will accept job codes from the barcode reader.

SHIPBROKER'S VOYAGE ESTIMATOR

– M.C.S. Ltd, c/o Prochart Ltd, Baltic Exchange Chambers, 24 St. Mary Ave, London, EC3A 8DE. Tel: (071) 623 2902.

For ship owners, charterers and brokers. Calculates daily rate of return for voyage and timecharters. Dry and wet. Includes ballast bonus/load-disch, terms/canals and bad weather. Newscale for tankers. Demurrage aid.

TRAINING ASSISTANT – Portable Software, 17 Skeldergate, York, YO1 1DH. Tel: (0904) 633918.

Allows individual or group programs to be created from existing lists with supervisor or self assessment. Sophisticated reporting allows progress to be monitored and planned. Linked to a register and personnel details. Other features include a presentation planner and timer.

PROMPTMASTER – Langdale Systems Ltd, 11 Dorcan Business Village, Swindon, Wilts. SN3 5HY. Tel: (0793) 693197.

Professional Presentations are enhanced with PROMPTMASTER. No more fumbling with cards or paper! Turns your Organiser into a powerful presentation tool, with automatic time performance check. Create any number of 3 line prompts on your PC, enter time available, check on the built-in Organiser emulator then download ready for instant use. Display shows current prompt and two line bar graph compares prompts used with time available. PC program and program pack for LZ.

TIMELOG – Survey Instrument Services Ltd, 97 Upper Rathmines Road, Dublin 6, Eire. Tel: (0001) 976570.

TimeLog is a time recording system which allows storage of accurate duration records. Timing can be done either in realtime (as the event is happening) or entered manually after the event. Upto three events can be logged at the same time (in order to be able to handle interruptions such as phone calls etc). Information can then be printed out in various different criteria.

SIS

BUSINESSMAN – Systemslink Ltd, Incon House, Stilebrook Road, Olney, Buckinghamshire, MK46 5LL. Tel: (0234) 711220.

Designed by a Banker this pack appeals to both Bankers and Businessmen. Calculating a wide range of business figures the pack will even print a mini balance sheet and calculate all your business ratios. Impress your Bank Manager.

AUTOSCRIBE PLUS – Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

The word processor for all models of the Psion Organiser II range, creates letters and reports of any length. Features include word-wrap, cut and paste, autosave, use of £, ?, !, etc, **bold**, underline, *italics*. Can exchange documents with PC word processor.

CONSULTANCY SERVICE – Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

Widget Software Ltd has an unrivalled depth of experience in providing specialist consultancy and programming services for the Organiser range. If you have a business problem which could be solved by an Organiser based system, contact Steve Kennett, Sales Director.

DENBAR – Codeway Shuster Ltd, Telford Way, Colchester, CO4 4QP. Tel: (0206) 751300.

The Denbar Fees Organiser, devised by a practising dentist to help receptionists, calculates dental treatment estimates and charges. Its barcoded tooth and treatment chart simplifies data entry. Elaborate checking against the NHS rules applied by the Dental Practice Board ensures accurate claims.

Database and File Handling

POWERPAK – Allenby Computer Services Ltd, Franklin House, Station Approach, Shepperton, TW17 8AN. Tel: (0932) 254218.

Relational database featuring spreadsheet-style browsing and maintenance, file indexing, relational fields, barcoding, communications, multi-field search and selection, sorting, merging, plus comprehensive report generator. Suitable for both novices and professionals.

PSPC – Will Chapman, Gable Cottage, 13 Bower Road, Queens Park, Bournemouth, BH8 9HQ. Tel: (0202) 393146.

Create Psion files on your PC. Transfer Psion files to a PC and enjoy full screen and qwerty keyboard editing. Compatible with DBase and Harvester files. Easy to follow menu driven program. Simply define fields and type away.

XBASE 3.0 – Cubsoft, 6 Okeover Road, Salford, M7 0JX. Tel: (061) 792 2871.

Unique features: • Instantly accessible when permanently installed into RAM leaving both slots free; • DBASE & LOTUS import/export; • Instant responses; • Unrivalled sort and print; • £ sign and punctuation; • Fully featured database including data prompts.

THE INDEXER – Musk Ideas Ltd, 62 Leslie Road, London, E11 4HG. Tel: (081) 556 9599.

Especially designed for those with music and/or video collections of ANY size. All current recording formats catered for e.g. CD, DAT, 78s, SUPER-VHS etc. Program also indexes each entry for easy access. Approximately 15,000 entries.

A.P.F. – XOB, Balkeerie, Eassie (By Forfar) Angus, DD8 1SR. Tel: (030) 784 364.

Pass any file in either direction between an Acorn computer (BBC, Archimedes, A3000) and the Organiser. Edit files using the Acorn keyboard and return them to the Organiser. Archive files to the Acorn disc.

PROBASE – Survey Instrument Services Ltd, 97 Upper Rathmines Road, Dublin 6, Eire. Tel: (0001) 976570.

Probase is a database-capture system. Files can be created with upto 16 fields, or eight different field types including Alpha/Numeric, data on time stamping, and barcode and magnetic swipe reading. Various options include Sorting, Counting and Totaling, with the ability to print in three different formats.

SIS

BACK IT UP Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

If you have ever lost vital data from your Organiser, you'll have wished you had Back It Up. Copies all data, diaries, alarms, programs, spreadsheets etc from all Organiser packs to your PC, ready to restore if required.

FILEMASTER IV – Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

FileMaster IV creates up to 110 database files on each pack. Search, Print and Copy records using a powerful range of conditional statements including AND, OR, NOT, EQUALS etc. Sort in ascending or descending alphabetic or numeric order using up to two sort keys.

TRANSFILE ST CL – Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

Atari ST owners – Transfile ST CL makes data transmission between all Organiser models and the ST easy and rapid. Use of Psion protocol ensures error free transmission of data files, notepads and OPL programs. Also prints via ST.

Data Collection

BROADCAST EDIT PACK – ANT Ltd, Office Suite 1, The Square, Forest Row, East Sussex, RH18 5ES. Tel: (034282) 4909.

Includes electronic shot listing in internationally accepted format. Very fast logging and annotation of shots. Transfer edit lists direct to edit controller. Comprehensive edit list management, including word search. Timecode plus film length calculator. Broadcast stop-watch etc.

METER READING – Apex Engineers, Park Heath, Cheswardine, Market Drayton, Salop, TF9 2NP. Tel: (0603) 086 313.

The 201 Datapak checks missed, misread or mistyped meter readings as entered against preset targets. The 221 generates and reads barcodes to identify meters. PC20 transfers data to PC into ASCII text, or PCRT transfers into custom designed software.

APEX AUDIT – Apex Engineers, Park Heath, Cheswardine, Market Drayton, Salop, TF9 2NP. Tel: (063) 086 313.

Data logging and analysis. Four Channel ST10 module for Environmental (temperature, humidity, pressure) and Electrical (clip-on CT) monitoring. Optical sensor SF30 module for direct meter reading. Six channel SF40 module for counting of pulse inputs. PC transfer and analysis available.

QUESTOR – HB Consultants, 4 Church Chambers, Church Street, Sawbridgeworth, Herts, CM21 9AB. Tel: (0279) 600433.

Totally reconfigurable Data Collection package. Easy questionnaire creation with PC set-up program, multiple question types, definable question flow, downloads to Organiser – LZ. Results uploaded to a PC graphical analysis program, and can be incorporated into most standard databases.

STIRLING MICROSYSTEMS – Computer Unit, University of Stirling, Stirling, Scotland, FK9 4LA. Tel: (0786) 73171.

The Time and Event Datalogger is the ideal way to capture data using an Organiser. Supplied on a Datapak it easily performs activity budgeting and focal sampling with data replay to a computer for analysis. Users include biologists, psychologists and traffic engineers.

DIGITRON INSTRUMENTATION LTD

—Mead Lane, Hertford, Herts, SG13 7AW. Tel: (0992) 587441

Digitron's SF10 module and software linked to the Psion Organiser II has now established itself as the leading datalogger in its field.

It offers 4 independent channels each measuring temperature, pressure, relative humidity and voltage.

Up to 60,000 readings can be taken, with programmable logging at regular intervals between 1 second and 15 days. Readings can be stored in the internal memory, or on a Datapak or Rampak. Readings can also be downloaded to a printer or computer in a graphical or tabular form.

Sophisticated, yet easy to use, the

datalogger comes out at an unbeatable price and due to its versatility, applications are wide-spread.

DIGITRON
Instrumentation

QUESTIONMASTER — Langdale Systems Ltd, 11 Dorcan Business Village, Swindon, Wilts, SN3 5HY. Tel: (0793) 693197.

An intelligent questionnaire running on the LZ. Ideal for surveys, interviews, standard quotes, etc. Set up any questionnaire on your PC, download to the Organiser and you are ready to go. Identifies user and time stamps each reply set. Programmed to accept five types of reply including string search from files. Next question dependent on answer, eliminating needless questions and saving time. Answers uploaded ready to import into database for immediate results.

dcAPP — XEC Computer Products, Inc, 13630 58th Street N, #103, Clearwater, FL 34620, USA. Tel: 1 813 531 1422.

dcAPP is a data collection application program generator. Automatically creates custom LOTUS, DBASE, and ASCII file compatible data collection programs (and their operating instructions) for the Organiser II using barcode readers, mag swipe readers and RS232 inputs.

SYSTEMS GUIDANCE LTD

2 Progress Way, Brandon Road, Binley, Coventry, CV3 2NT. Tel: (0203) 450031.

We provide total solutions, including host computer systems or integration with your existing systems. This includes Consultancy, Design, Packages, Modifications, Bespoke Software, Training and Support. Peripheral devices include barcode wands, laser scanners, magnetic card readers, door locks, printers, modems and our own auxilliary battery packs.

Software available:

- Goods inwards; • Stock control; • Data collection for EPOS; • Price checking; • Order collection; • Security; • Meter reading; • Building survey; • Data transmission via

modems or radio links. Systems Guidance is an agent for Psion, IBM and other products.

Engineering

ASSEMBLER PACK — AR Software, Eendenlaan, 2, 2540 Hove, Belgium. Tel: 3455284.

Supports standard mnemonics and labels; • Line by line input or by file; • OPL compatible file handling and calling; • Powerful debugger with step mode, hex editor, disassembly and copy facilities; • Stand alone (no PC link); • User friendly with documentation.

LOOKSAT — BroadOak Computing Ltd, PO Box 366, London WC2E 9SQ. Tel: (071) 836 7640.

Calculate dish pointing angles and polar mount offset angles from anywhere in the world to any geo-stationary satellite, for the reception of satellite television etc. Automatic modes for 24 locations in the UK and for four satellites.

CHRIS THORPE PROJECTS – 18 Eastlands Road, Tunbridge Wells, Kent, TN4 8JY. Tel: (0892) 26505.

A flexible time code reader for use in the television and sound recording industry. Enables a Psion Organiser to read linear time code with full logging and time code calculation facilities. For use on location and in post production. Consists of Datapak and interface unit.

HIGHWAYS & BRIDGES – Howard Humphreys & Partners Ltd. Tel: (0372) 376190. (See Surveying).

Programs designed with the inspector in mind to collect site data: • Highway inventory/condition/hazards (ROADRUNNER); • Bridge inspections (BRIDGIT); • Street lighting (HIGHLIGHT) and; • RMMS Safety-Detailed Inspections (HINT-SI). See our entries under Surveys and Transport.

STUDIO PAK – DefSoft Software, 134 Holland Park Avenue, London, W11 4UE. Tel: (071) 792 3311.

A collection of 10 programs and utilities on a 32K pack for the LZ, designed to aid Producers, Engineers and Musicians in the studio. Contains; Delay time, SMPTE and time calculators. A spreadsheet relating harmonizer, IPS, tempo, frequency and percentage values. A metronome and temp analysis from key tapping or timecode. Chord computers for keyboard and guitars and a comprehensive phone listing for studios, record and hire companies.

defSoft

Finance

E.C.B. – D.H. Software Systems Ltd, Pearce House, Cawdor Street, Eccles, M30 0QF. Tel: (061) 787 7567.

Suitable for all Collectors who use Kalamazoo collecting ledgers. Eliminates the collectors paperwork, and fully automates office ledger posting work – saving between £1,000 and £100,000 a year in office overhead costs and helping to increase your profits.

FINANCE PACK II – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Allows you to securely and accurately hold and update all your personal accounts on the Organiser.

- It can handle multiple accounts such as current, deposit, expenses;
- Record standing orders and direct debit instructions;
- Carry out financial calculations including APR, TAX and MORTGAGE;
- Enables you to check all transactions against actual statements received, and generate reports, balances and statements;
- Password protection and data encryption ensure that your data remains secure;
- OPL interface.

PORTFOLIO – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Created for the private investor, Portfolio enables the recording of all share, unit trust, gilt and bond investments, the updating of prices and the buying and selling of holdings. It maintains a summary of the entire portfolio value, cash account totals, dividends received and brokers' costs; "flags" shares that deviate beyond preset high/low prices; estimate the current capital gain of the portfolio and allows the complete record to be printed.

PURE FINANCE – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Pure Finance is dedicated to professional financial calculations and problem solving, with the ability to carry results from one calculation into another.

- Pure Finance calculates Net Present Values (NPV), Internal Rate of return (IRR) and Payback;
- Percentage mark-up, commission and VAT;
 - Compound interest, monthly loan payments, future value of regular savings, payment period etc;
 - Days between dates;
 - APR, straight line and declining balance depreciation;
 - Breakeven analysis;
 - Statistics.

DMT ASSOCIATES – The Banda, Clifford Road, Barnet, Herts, EN5 5NY. Tel: (081) 440 4070.

General

DIARY LINK – Psion UK PLC, 85 Frampton Street, London,
NW8 8NQ. Tel: (071) 262 5580.

Diary Link enables the transfer of Organiser (CM and XP only) diaries, using the Comms Link, to IBM PC compatible computers, for printing, editing or simply to archive on disk rather than on Datapak.

Diary Link also merges Organiser diaries with Sidekick™ diaries, automatically updating both diaries and highlighting any conflicts. Diary Link is supplied on 5¼” disk.

OXFORD CONCISE SPELLING CHECKER
– Psion UK PLC, 85 Frampton Street, London, NW8 8NQ.
Tel: (071) 262 5580.

The Concise Oxford Spelling Checker provides an instant check on the spelling of over 24,000 carefully chosen words. Drawn from the Concise Oxford Dictionary, the words have been shown by office studies to be the most commonly misspelt.

As easy to use as a simple dictionary, just type in the first three or more letters to define the word and the Psion Organiser II will immediately display the correct spelling on the second line of the screen.

EASYMAIL – Allenby Computer Services Ltd, Franklin House,
Station Approach, Shepperton, TW17 8AN. Tel: (0932) 254218.

Communications package for world-wide electronic messaging (fax, telex, electronic mail, database). Features include service directory, autodial, command line editor, repeat commands, macros, file transfer, session journal, on-line printing, plus integrated word processor.

THE SAURUS AND SPELLING

CHECKER

– Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

From checking your spelling, to locating that elusive word or even solving crosswords and anagrams this one piece of software will do it all.

Spell Checker – tracks down 100,000 words phonetically; using wild cards will locate the correct spelling even when guesses with missing letters are tapped in. Names, places and abbreviations are included.

Thesaurus – 660,000 synonyms to help locate missing words. Words are listed in groups with similar meaning.

Anagram solver – Jumbled letters are unscrambled to find the missing word. The pack has full OPL interface, and you can add new words to the word list for Spelling Checker.

WILL CHAPMAN, Gable Cottage, 13 Bower Road, Queens Park, Bournemouth, BH8 7HQ. Tel: (0202) 393146.

NOTEPAD – Store temporary information quickly and easily. Automatically dated, easily edited, linked to address file. BANKING – Electronic chequebook. Automatic standing order, unlimited number of accounts.

FNKEY 3.1 – Cubsoft, 6 Okeover Road, Salford, M7 0JX. Tel: (061) 792 2871.

Macros – press just 2 keys for accurate performance of routine tasks! Cut and paste – turn your Notepad into a Word Processor! Access full Organiser character set. Permanently installed into RAM. Only Cubsoft offer a money back guarantee of satisfaction on all products.

IPSO GROUP, 130 Stapleford Lane, Toton, Beeston, Nottingham, NG9 6GB. Tel: (0602) 735482.

AIRNAV – Interair Aviation Ltd, North Side, Bournemouth International

Airport, Bournemouth, BH23 6HA. Tel: (0202) 581001. Fax: (0202) 581984.

A software program designed by Interair Aviation for use with all Psion Organiser models by commercial and private pilots as a complete aid to route planning, sold and successful worldwide. Calculates track and distance between two points, heading, ground speed, journey time, fuel used and remaining, runway crosswind, your position on a fix between any two points including NDB's or VOR/DME's, weight and balance schedule and journey cost.

Includes Morse sounder, waypoint logging, 450 airfields, NDB's/VOR's

in UK database. Editor to modify or add new points. Databases available for countries worldwide. Features of the Organiser are retained.

PERSONAL ASSISTANT – Portable Software, 17 Skeldergate, York, YO1 1DH. Tel: (0904) 633918.

Takes over where the Filofax finishes. An intelligent address book, combined with accounting and stock functions. Designed with international mobility in mind, it does a full range of conversions and operates with mixed currencies. Several utilities included to allow data to be passed to other systems.

MACKAY LANGUAGE

SOFTWARE – 41

Kensington High Street, London, W8 5ED. Tel: (071) 937 2077.

Prakpaks can help you speak and learn FRENCH and SPANISH – soon ITALIAN and GERMAN too – using the most sophisticated software and vocabulary of any pocketable system. There are ENGLISH Prakpaks for students of English as a Foreign Language, a MUSIC Prakpak for learners of the piano or keyboard, and a MORSE Prakpak for radio amateurs. BIORHYTHMS can be calculated on Biopak and complete ASTROLOGICAL data obtained from Astropak. A 4-line TYPING TUTOR and

WORD-WRAP NOTEBOOK is available as shareware copied onto your own Datapak. Contact us. See what your Organiser can do.

MONAD

International Ltd –

42 Laburnum Road, Chertsey, Surrey, KT16 8BY. Tel: (0932) 565035.

Problems with the keyboard?

You need EASY-WRITING!

Many people find that despite the convenience and portability of the Organiser, the tiny keyboard restricts its usefulness. It was for this reason that we developed EASY-WRITING. EASY-WRITING only takes a few minutes to learn and yet it enables you to write many times faster than a touch typist can on an ordinary keyboard! Within a week you will be typing at twice your current speed, at least. EASY-WRITING is invaluable for all types of financial and scientific calculations too.

EASY-WRITING – a new kind of program for a new kind of computer!

MONAD

LINKUP – Systemslink Ltd, Incon House, Stilebrook Road, Olney, Bucks, MK46 5LL. Tel: (0234) 711220.

Install this software on your PC to instantly capture files that you would normally print. Simply type LINKUP on your PC, name a file and the information or document will be displayed and stored for subsequent printing or editing.

BESPOKE APPLICATIONS – Systemslink Ltd, Incon House, Stilebrook Road, Olney, Bucks, MK46 5LL. Tel: (0234) 711220.

Let us professionally develop your application using our own database, barcode reading, financial and valuation software routines. We can build systems that work on their own or that integrate with full size office computers.

STIRLING MICROSYSTEMS, Computer Unit, University of Stirling, Stirling, Scotland, FK9 4LA. Tel: (0786) 73171.

Stirling Microsystems provides a comprehensive consultancy service for all your Psion requirements. The service specialises in data collection and time and event recorders for varied applications using keypad entry, barcode and magnetic card readers.

ROUTEWISE – Titan Computers Ltd, 3 Cleveland Road, Bradford 8, West Yorkshire, BD9 4BP. Tel: (0274) 544586;

Our data collection programs make life easier for surveyors, with interactive responses, help messages, error checking and on-site editors; • ROADRUNNER assessment/costing/hazards databases; • HIGHLIGHT street lighting and BRIDGIT bridge inspection systems (asset/maintenance database, works orders, condition monitoring, costing etc.); • HIINT-SI Highway Safety & Detailed (RMMS) Inspections which accept DTp codes and generates workorders. We also have journey time, traffic count and parking survey programs. See entries under Engineering & Transport.

 **Howard Humphreys**

SURVEY MASTER – Surveying Technology Ltd, 20/21 London Fruit Exchange, Brushfield Street, London, E1 6HB. Tel: (071) 377 1284.

A portable computerised building survey system, employing a powerful Organiser data capture program. Survey data is entered via an icon barcode menu. Closing errors are displayed and full on site editing is available.

Send survey data directly to your CAD using the RS232. Once data is transferred it takes only seconds to turn the survey into a drawing showing external walls, doors, partitions, windows etc, automatically. Saves hours of data input and increases accuracy.

DMC II – DMC, 5

Woods Mews, Park Lane,
London, W1Y 3AG.

Tel: (071) 629 1100.

The DMC II is a unique business system which combines distance/area measuring with text added to each measurement, plus the ability to calculate the prices and values from its pre-installed database.

The main menu allows up to 30 costs (price references) with descriptions to be stored e.g. quotations for painters etc. These can be selected after a measurement is taken to provide project cost details. At the end of the project the DMC II can be used for preparing costed quotations. The stored information can be printed out on site, or downloaded to a PC for further processing.

DMC

printer or connect to a Personal Computer using LINKUP. Now used by hundreds of surveyors.

EASIER VALUATIONS –

Systemslink Ltd, Incon House,
Stilebrook Road, Olney, Bucks,
MK46 5LL. Tel: (0234) 711220.

Having sold Psion-based Inflight Sales Systems to Virgin and completed successful tests with one of the largest US carriers Delta Airlines, Ferrari Hand Data Systems has recently announced sales to Finnair and Austrian Airlines; the first national carriers to commit themselves to a single solution. In a separate development, Ferrari is evaluating a new system for airline ticket revenue applications, greatly improving budgeting processes while speeding up invoicing procedures between carriers.

Ferrari Hand Data is a leading soft-

Group, John Lewis Partnership, Chessington World of Adventures and Armstrong World Industries.

SOFTA

ware development company with an expert team of analyst/programmers who are dedicated to producing data capture application in a wide variety of market places.

Ferrari

PSION CORPORATE SYSTEMS - Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Psion Corporate Systems are specialists in providing total solutions to any business problem. Through working with clients in industries as diverse as retailing, financial services, health care and service engineering, we are able to produce complete business to business solutions.

This starts with analysing the problem, continues with writing bespoke software, providing standard of modified hardware and is completed with Psion providing full technical back-up and support.

Systems may stand alone or can be integrated into existing PC or main frame systems that extend far beyond the confines of the office.

DEVELOPER -

Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

An invaluable development tool for anyone writing software programs for the Psion Organiser II. Supplied on a 5 1/4" disk for IBM PC and compatibles, it gives you the ability to create, test and debug your OPL procedures on the PC before transferring to the Organiser.

- Full screen editor including two buffers, cut/paste and search;
- Powerful language debugger allowing single stepping, tracing, watching variables, and many other facilities;
- Creates and saves Datapak files, and transfers them directly to and from the Organiser via the Comms Link;
- Suitable for developing programs for

- both two and four line Organisers;
- Can be used for creating backups of Datapaks on a PC.

Transport

TRAVEL PACK – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

The Travel Pack is the ultimate information Database for both the business and leisure traveller.

It provides a translation dictionary with over 700 useful words and phrases translated between English, French, Spanish, German and Italian; international telephone dialling directory and world clock; currency conversions; weights, measures and clothes size conversions and trip itinerary.

Travel Pack will also record expenses, keeping a running total and can print a full statement.

TRANSPAK II – Dalewood Computing Ltd, 317–319 Oxford House, 2 Cheapside, Reading, Berks, RG1 7AA. Tel: (0734) 504598.

Invaluable for fleet and design engineers. Comprehensive package of calculations including axle loadings, ideal wheelbase, swing clearance, maximum payload and diminishing loads for rigids, artics and trailers. Handles multi-compartment bodies, front and undermounted fridges, tail lifts, crew cabs, Hiab cranes, draw bars and eight wheeler tracks. Vehicle specifications and calculations can be saved, edited and printed. Transpak I still available. Please call for details.

HINT Howard Humphreys and Partners Ltd, Thorncroft Manor, Dorking Road, Leatherhead, Surrey, KT22 8JB. Tel: (0372) 376190.

Our programs provide comprehensive analysis and result tabulations; • HINT-JT for journey time surveys (moving card method); • HINT-TC for classified traffic flow/turning count surveys and; • HINT-PS for parking surveys (patrol/car park observations). See our entries in Engineering & Surveys.

CAR PARKER – Systemslink Ltd, Incon House, 10 Stilebrook Road, Olney, Bucks, MK46 5LL. Tel: (0234) 711220.

Designed to log and control vehicles on site. Move the vehicles, find free spaces, list the various types, authorities etc. Optional interface to Barcode reader. Dayend procedure includes full print and link to PC for record keeping or stock control.

Storage

DATAPAKS – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ.

Tel: (071) 262 5580.

With Datapaks and Rampaks which plug directly into the back of the Organiser, it is possible to build an unlimited library of personal data and programs for everyday or specialised use.

Datapaks – Are the equivalent of floppy discs in PCs, don't require a power back-up and are less volatile than RAM memory, so they keep your information permanently safe even when removed from the Organiser II. Datapaks are available in sizes 8K, 16K, 32K, 64K and 128K and each machine can take two at a time giving as much as 320K of on-board memory in the LZ64.

Datapaks can be erased in a Formatter (see page 40).

RAMPAKS – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Rampaks are an ideal alternative if the information being stored needs to be frequently edited or revised, such as when developing programs in OPL.

Rampaks are faster at saving information than Datapaks and have their own battery back-up.

(Rampaks and 128K Datapaks will not work on the model CM).

RAM.PAGE PACKS 128K

AND 256K – Widget

Software Ltd, 121 London Road,
Knebworth, Herts, SG3 6EX.
Tel: (0438) 815444.

Run out of memory on your Organiser? The new Ram.Page Packs, distributed by Widget Software Ltd, provide a massive 128K and 256K of battery-backed RAM for your Organiser. Ram.Pages are the same physical size as normal 32K Rampaks, but can store four or eight times as much data, which can be frequently updated without losing space.

Each Ram.Page can occupy either slot B or C of the Organiser, leaving the remaining slot available for other packs. They are highly reliable and

the replaceable battery is guaranteed for 2 years. 512K and 1 Mega-byte packs also available.

Peripherals

DT/DIALER – XEC Computer Products, Inc, 13630 58th Street N., #103, Clearwater, FL 34620, USA. Tel: 1 813 531 1422.

The DT/Dialer plugs into the top slot of the Organiser II and allows automatic and manual tone dialling of telephone numbers and control codes. Full featured software is built in to the DT/Dialer, and it can be custom programmed using OPL.

DYNABAR-232 – XEC Computer Products, Inc, 13630 58th Street N., #103, Clearwater, FL 34620, USA. Tel: 1 813 531 1422.

The Dynabar-232 is a one piece integral barcode reader. RS232 interface and loud buzzer that attaches to the top slot interface port of the Organiser II. The Dynabar-232 implements Psion standard barcode and Comms Link software.

PSION

PRINTER II – Psion

UK PLC, 85 Frampton Street,
London, NW8 8NQ.
Tel: (071) 262 5580.

When used in conjunction with the Psion Organiser II this purpose designed dot matrix portable thermal printer will produce on the spot print-outs of any Organiser application from spreadsheet to listing your programs.

- Print speed of approximately 1 line per second;
- Prints in 20, 40, 60 and 80 column text, and 256 dots per line graphic mode;
- Accepts Organiser Comms Link (RS232) interface to connect other peripherals;
- Mains Adaptor recharges printer battery whilst powering printer.

It requires 2.5K of Organiser RAM to

be operated and can be used with any version of the Organiser. Supplied with a set of rechargeable batteries, roll of thermal paper and a mains adaptor /battery recharger.

PSION

COMMS LINK

(RS232) – Psion UK PLC,

85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

Comms Link fits into the top port of the Organiser and connects it to printers, computers, modems and any other RS232 standard devices.

Simple to use menu driven software is supplied on the Comms Link itself, and to make data transfer even easier, a disk of software for either IBM PC[®] compatible or Apple Macintosh[®] computers is also included.

- Allows bi-directional transfer of files, OPL programs and spreadsheets between the Organiser and a PC;
- Allows access to electronic mail and telex services with terminal emulation. (Via a modem – not supplied);
- Asynchronous communi-

cations at 50 to 9600 baud; • RTS/CTS, XON/XOFF handshaking, XMODEM and Psion error-checking protocols; • Totally controllable from within OPL programming language.

PSION

PSION CORPORATE

HARDWARE – Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

To support the demand from Psion Corporate Systems clients for complete solutions, a range of peripherals have been developed to work in conjunction with Psion hand-held terminals.

The range includes interface devices such as barcode readers, magnetic card swipe readers and dual devices incorporating communications software to link a barcode reader or magnetic swipe with any other RS232 device.

Large numbers of Datapaks, can be quickly cleared of all previously stored

information, using the Eraser 16. (Up to 16 cleared simultaneously). For bulk copying of Datapaks, the Psion Mark III copier will copy 8 packs simultaneously.

FORMATTER

Psion UK PLC, 85 Frampton Street, London, NW8 8NQ. Tel: (071) 262 5580.

The Formatter: Allows you to clear all information from Datapaks, leaving them blank for re-use. Powered from the mains (AC circuits) various models are available for different voltage requirements. Formats two Datapaks in approximately 30 minutes.

Mains Adaptor (AC):- Powers the Organiser. Useful when communicating with other devices, or when saving large amounts of data. Does not recharge batteries.

Link Up Adaptors:- To get the full benefit of being able to link the Organiser to almost any other RS232 device a wide range of link-up adaptors are available.

This includes IBM AT®, Apple Macintosh®, Modem and Printer.

COMMS

PRINTER

– Extech Instruments Corporation, 150 Bear Hill Road, Waltham MA 02154, USA. Tel: 1 617 890 7440.

The Extech Comms Printer combines an RS232 Comms Link and portable dot matrix printer into one, easy-to-use package. With the Comms Printer, your Organiser can print out reports, receipts etc, as well as communicate with other computers and devices equipped with a standard serial port. Printer comes complete with NiCad batteries, recharger, paper and built-in RS232 Comms port.

Features: 24 or 40 column models, both with double width and graphics. Uses plain paper (57mm width) for Permanent Records; Optional barcode interface and internal 2400

baud modem.
Dimensions: 106x97x50mm
Weight: 0.4kg w/paper & batteries.

EXTECH

INSTRUMENTS

COMMS MODEM

– Extech Instruments Corporation, 150 Bear Hill Road, Waltham MA 02154, USA. Tel: 1 617 890 7440.

Transform your Organiser into a Versatile Communications Link, providing two-way transfer of files, text and programs via ordinary telephone lines. The Comms Modem gives the Organiser the ability to operate as a remote terminal or transmit and receive files, orders, reports, etc., to and from remote computers. Plugs into the top of the Organiser with our special sleeve. Operates on 9V battery or optional AC Adaptor.

- Transmit and receive data at 0-300, 1200 or 2400 baud;
- Built-in Comms Link with RS232 Comms Port;
- Hayes, Bell and CCITT • Compatibility;
- Selectable tone or pulse dialing;
- Optional interface for direct connection and decoding of Barcode Wands, Magnetic Card Readers and Laser Scanners;
- Card Readers and Laser Scanners.

MINI FORMATTER

– Extech Instruments Corporation, 150 Bear Hill Road, Waltham MA 02154, USA. Tel: 1 617 890 7440.

Compact and attractive Mini Formatter has been designed for convenient simultaneous erasure of up to two Datapaks. Auto shutoff after 20 minutes. Mains operated by using 117 VAC, 220 VAC, or 240 VAC adaptors. Available Summer 1990.

IR COMMS INTERFACE – Extech Instruments Corp, 150 Bear Hill Road, Waltham MA 02154, USA. Tel: 1 617 890 7440.

Two part wireless infrared communications link for Psion Organiser II and any serial device (PC or printer) for sending and receiving serial data without the need for RS232 cables. Psion end plugs into top slot of Organiser and includes built-in Comms Link software. Transfer files to remote serial device (up to 10 metres distance) or even to another Organiser. Includes error checking and LED indication of data transmission and reception. Other end plugs into the serial port of a PC or printer via DB-25 connector. Available Summer 1990.

INSTRUMENTS

POWER PERIPHERALS –

Powamatics Ltd, 44 Cheltenham Mount, Harrogate, N. Yorks, HG1 1DL. Tel: (0423) 560032.

A range of POWER SUPPLY products and a non-slip DESK STAND/HOLDER. Whether using your Organiser in the office, warehouse, or collecting data outdoors, POWAMATICS have the answer. The products incorporate a unique patented design which converts any Organiser into a fully rechargeable cost-effective system. Once the special Rechargeable Battery Conversion Kit is fitted, the necessity to change batteries is completely obviated.

POWERMATICS PERIPHERALS enhance the operation of the Organiser

by making its use more attractive in conditions of heavier power demand, such as barcode reading and writing to Datapaks.

POWAMATICS

DYNA/POLL – Dynasys Technologies, Inc, 800 Belleair Road, Clearwater, FL, USA 34616. Tel: 1 813 6600.

The Dyna/Poll-485 Network system for the Organiser II supports on-line data collection applications in a real time environment for between 1 to 254 Organiser IIs attached to a host PC. Dyna/Poll software utilities are provided for complete network configuration and polling data collection.

PARALINK –

Widget Software Ltd, 121 London Road, Knebworth, Herts, SG3 6EX. Tel: (0438) 815444.

Paralink lets you print immediate 'hard-copy' from your Organiser to a standard parallel printer. One end of the Paralink cable slots into the top of the Organiser, and the other fits into the parallel (Centronics) port provided on 99% of the printers currently on sale. No other adaptors are needed. The Paralink cable also includes a mains adaptor socket.

Paralink's software allows printing of data files, diary files, notepads, and programs. Paralink can be used by any program using standard print commands, including AutoScribe

Plus, the Finance Pack or your own OPL programs.

Books

PSION ORGANISER DECIPHERED

— Kuma Computers Ltd, 12 Horseshoe Park, Pangbourne. Tel: (0734) 844335.

A comprehensive guide to using all two and four line models of the Organiser. Ideal for first time users, but also containing much useful information for the more experienced.

PSION ORGANISER COMMUNICATIONS

HANDBOOK – Kuma Computer, (see above). Tel: (0734) 844335.

The essential handbook for anyone who needs to link an Organiser to other devices such as printers, microcomputers etc. Detailed fact sheets are included together with information on the various communication packages available.

MACHINE CODE PROGRAMMING ON THE PSION ORGANISER

– Kuma Computers. (see above).

Detailed background information on the operating system of the Organiser together with a comprehensive explanation of the Psion Machine Code instruction set. Numerous examples and exercises demonstrate how the information can be used.

USER BOOKS –

Psion UK PLC, 85 Frampton Street, London, NW8 8NQ.

Tel: (071) 262 5580.

Two clear and concise books specifically for the Psion Organiser II models CM and XP which will benefit both the expert and uninitiated alike. "Using and Programming the Organiser II", takes the reader through the operation of the Organiser and the principles behind a computer. It leads you into programming, for more expert users it explores file handling in more depth.

"File handling and other programs for the Psion Organiser II", explains how to write programs to handle individual requirements for file handling.

It includes two extensive and com-

prehensive file-handling programs, which demonstrate the whole process and can be modified to suit a diverse variety of needs. All routines are fully explained.

Training

TRAINING
